Odessa

The attack in Odessa is, we are told, soon to be repeated. In today's world, the planning of "isolated incidents of spontaneous violence" requires careful coordination. NATO hacking teams, US Embassy attaché's, corrupt police officials and media, New York, London and Washington, all mysteriously are well informed.

What we are told is "civil discord" or even ethnic cleansing is, in reality, something else, something far more sinister and foreboding. The Pentagon has other names for it, asymmetrical warfare or low intensity conflicts. We call it "war on the cheap."

Washington's new war is all about collateral damage, more deaths to the dollars than "shock and awe."

Last week's incident in Odessa resulted in; we are told 46 dead, "smoke inhalation," untrained thugs, butchery. None of this is true. A Veterans Today working group including top level former NATO intelligence officials has examined evidence, taken testimony and now renders an opinion.

### Autopsy Results

The cover up was infantile. Smoke inhalation, shooting and fire, no mention of rapes, no mention of staged ritual killings, no strangulations, no stabbings and mutilations, the results were manufactured.

No mention of chemical agents though the mutilated bodies and the dozens sources tell us were secretly removed tell a very different tale. This was savagery with a purpose.

The western press will never show the photograph of a pregnant woman, strangled with a phone cord around her neck, still at her desk, carefully staged, standing erect. Even the language alone describing other hideous scenes would be enough to trigger Google censors.

A hard way to die

The photos and videos tell a different tale. Within hours, bodies were bloated and discolored, even where the surrounding area showed no sign of fire.

**No weapons are seen**, simply men and women in everyday civilian dress, no combat gear, no bulletproof vests, no helmets or ski masks. This was slaughter, carefully staged and executed. Clear efforts were made to disguise cause of death where no wounds could be found and no clear evidence of fire existed.

**This was a NATO military operation, fully coordinated through the US Embassy in Kiev, one using nerve gas and done with full cooperation and support from local authorities. Sources among local law enforcement indicate that 94 additional bodies were removed, all showing signs of death from a chemical nerve agent, identified "probably" as VX. VX or one of a dozen or more derivatives of VX are available in grenade form.**

Stockpiles of VX and other weaponized chemical warfare agents have been identified at a facility in Georgia near the airport at Tbilisi. Sources at that facility tell of Ukrainian Special Forces accessing chemical weapons there and, in particular, transporting Sarin into Turkey for, assumedly, delivery to NATO backed Al Qaeda forces.

Now that these weapons have been introduced, they will soon be used as they have been in Syria, false flag terrorism.

### A New Kind of War

**With the downgrading** of America's military capability and the battlefield survivability of both armored and helicopter assault units quickly coming to an end, Pentagon experts have devised a new standard for future conflicts.

There are to be no more wars, certainly not openly admitted as such, not as we have seen in the past. No masses of troops and tanks are to be put in harm's way, no naval flotillas. Wars are to be carefully staged through manipulation of ethnic rivalries, staged false flag terrorism and always couched in tired "Cold War" terminology.

**Instead of highly trained troops**, "irregular" forces can flood into any conflict, poorly trained, unaccountable, often unpaid and purposefully barbaric.

There is no more need for the professional or even the "citizen soldier." Armed rabble, human refuse, this is where the armies of the future will be found, on street corners and prison yards.

Where legitimate political and social unrest exists, it is soon overwhelmed by a juggernaut of mercenary "freedom fighters" trained in Poland or Chechnya, Jordan or Turkey.

Hired hands

**The new kind of war** requires no victory, no land to be conquered, no enemy to be defeated. War is a justification in itself. The "new war" is a continual war, one that begins and knows no end, a plague without a cure.

**The real enemy is peace. War is and always has been an end unto itself. It is only now that this fact is not only realized but described in theory and put into practice on a global scale. Were one to look at Libya or Iraq or Afghanistan or Syria, perhaps Sudan or the Democratic Republic of Congo, these wars, these "revolutions" are all the same, unending and "unendable."**

Israel learned this lesson long ago as they are 66 years into a war they plan to sustain forever.

The lessons of Iraq have been taken to heart in Washington. America learned that no matter how false a claim of use of chemical weapons may be, once the question is brought up, no matter how absent any real proof is, it can be kept alive through an endless stream of unfounded allegations that press "assets" are more than happy to disseminate.

Neither young or old were spared ... and not a weapon in sight

**Even more simply**, as long as CNN, the New York Times and Washington Post can be controlled, and "forever" is an understatement, world leaders will, for the most part, remain silent, fearful of being cast in the role of "conspiracy theorist" or, worse yet, suffering the fate of Gaddafi or Chavez.

In truth, Washington has learned it can do anything and, as long as it can manipulate the United Nations and the International Court of Justice at The Hague, and "forever" is an understatement there as well, no act can be brazen enough to be considered a risk.

**In short, all wars will be fought by civilians, ragtag militias, death squads, no more legless veterans selling pencils on street corners, no more military pensions; the new war is "war on the cheap."**

**All that is required for a war is a target, a nation with something worth stealing and a will to steal it. The rest, staging an insurgency, a revolution, painting a legitimate elected government as an "axis of evil" is child's play. What government has no opposition? What government is uncorrupted?**

Every government is a target, including and, perhaps "especially," the United States. When it catches fire, the world can stand back. America is seething with hatred "from sea to shining sea."

**What is so difficult** for Americans to understand is when that day comes, and it is more "when" than "if," the world may seem a bit safer, more secure.

Yet Eric Ponce of Darkness blatantly denies any involvement in Ukraine. But Eric Ponce is just a cutout, a puppet to put a face on a new investment in continuous war by the global fascist oligarchy. Eric Ponce may soon learn personally very well what a "blowback" is.

...The Obama administration-wrote the Washington Post-"preferred covered rather than the use of conventional force action." USSOCOM commander, Admiral William McRaven, said there is a month a Senate committee that U.S. special operations forces to operate in 78 countries worldwide. Either by direct action or by training local units...  
But USSOCOM looks beyond in its "Vision 2020", it provides "building a global network of special operations forces," including those of allied countries, including Italy, placed under U.S. command . In this way, the decision to go to war becomes the more exclusive domain of power domes and parliaments lose the little decision-making power they have left

If anyone who has been watching the dance of "gun safety" advocates on the National stage can read Gordon's article and not see that this is "coming soon to a theatre near you," then they are horribly obtuse.

It would be so much more convenient if Americans were unarmed in order that this style of war could be on-shored.

Conspiracy theorists, my a\$\$\$. These dots are so huge, it is impossible not to connect them.

WTF anyway.....carry on and do keep that head down.

The current (and from the top down, original) Pentagon philosophy was established Trotsky in 1920, when he wrote his research paper "The Defence of Terrorism." His polemic argued for the necessity of organized top-down State-sponsored Terrorism.

Note how google spins you around — search on DefenSe of Terrorism and you get pages of junk. Then try a search on DefenCe of Terrorism (british spelling), and after a little digging maybe a ORIGINAL of this seminal work by Trotsky will pop up. Do not waste time reading somebody said somebody said what Trotsky was really thinking. The title Terrorism and Communism is a distraction.

The fascination with pulling pants down on the murder victims is a signature of JEWISH terrorism. Compulsive fascination

Thanks for the truth, sickening as it is. We'll never bring this scum (NATO, the zionists, etc.) to justice if we don't have the guts to speak the truth and that's the easy part. Thanks for leading the way with quaint old-fashioned thing called HONESTY and a pinch of courage.

Next Question (from here)

Since this was an atrocity which could easily be avoided,  
And 'they' knew 'we' would find out,  
And it sure looks like a deliberate provocation from here.  
On a Higher Level and about More Important Things

This brings to my mind "Sweet Dreams are Made of These" (a Song, you may have heard it.;

Some of them want to abuse you  
Some of them Want To Be Abused.

I suspect that both the Albert Pike 'three world wars' script and old messianic scripts involving mass human sacrifice (by fire?) are a factor here.

A small part of a larger Passion Play.

Some people think the future is scripted, they just act it out.

Some think they can play "let's make a Deal" and come out on top.

We are present for the accounting I suspect.

Meanwhile

NATO always wanted to be the army the UN always wanted.

It is not a bug, it is a feature.

Have a look at the UN Charter, its origins, and behavior, and ask yourself..

Are these the kind of people we want having a (free) army??  
(and note also that the UN has NO 'citizens',  
And you (we) have No Representation in that body.  
Check out Brussels, BIS, WTO (and now sneaky TPP?)

This is horrible...truly a nightmare what our country has become...but are we really threatened as well? How does that work? If we don't continue doing the bidding of the Synagogue of Satan then we can expect our dollar to be crashed? The petro-dollar dumped? Inflation and interest rates rising daily?

Yes, no doubt they're banking on US citizens' loving their consumerist lifestyles more than their consciences. Who would be ready to let go of the almighty \$\$\$ for the sake of saving millions of lives somewhere far away? Few.
